EPIperformance.com

Greetings,

Thank you for your interest in becoming one of our dealers. We are the industry's leading source for performance clutching and driveline components. To help ensure and preserve the integrity of our dealer and distribution network, we do ask that certain criteria are met.

Our minimum Dealer requirements include, but are not limited to the following:

- A retail establishment primarily servicing the powersports industry.
- A maintained store front for the purpose of retail sales and/or service shop for parts sales and repair service.
- Posted business hours.

To assist in processing your application, please include the following items with your application:

- A recent copy of an invoice from one or more powersport distributors.
- Several photos of your dealership, which represent a good depiction of your business.
- Please include inside photos along with outside ones showing the storefront and signage.
- A copy of your business license and business phone directory listing.
- Completed State Tax Resale Form. If you sell in multiple states, we need a form for each state.

Thank you for your interest. We look forward to receiving your completed application. If you have questions please feel free to call EPI Performance at 218-829-6036.

Best Regards,
EPI Performance
