DOLLAR FOR DOLLAR, POUND FOR POUND

You won't find a better performance investment for your machine than an EPI™ Clutch Kit.

Every year we work with several industry magazines whose goal is to test aftermarket products and report the results to their readers. Time and time again they are impressed with the performance experience of an EPI™ Clutch Kit. Dialing in your CVT Clutches might be the least expensive way to make notable gains. Compare the price of a clutch kit to the other performance modifications you can spend your dollars on and you'll see what we mean.

Sport Utility Kit

- Our best all around use kit
- If you do a little bit of everything with your quad this is the kit for you
- Great for trail riding, occasional mud and sand riding, plowing and hauling
- Makes up for the power loss and slow response of adding oversized tires
- Better low end and midrange acceleration
- Quicker backshift which results in crisp throttle response
- Reduces belt slip and clutch heat
- Kits designed for stock or oversized tires

Mudder Kit

- Designed for machines with 28" or larger tires
- Helps restore power loss due to addition of larger tires
- Allows for easier turning of larger tires in the mud
- Better low end power and torque
- Quicker backshift which results in crisp throttle response
- Reduces belt slip and clutch heat

Sand Dune Kit

- Designed and tested specifically for sand dune applications
- Different kits for stock and paddle tires
- Helps hold peak power RPM when dune riding and climbing hills
- Helps restore power loss due to addition of paddle tires
- Better low end power and torque
- Quicker backshift which results in crisp throttle response
- Reduces belt slip and clutch heat

Competition Stall

- Works with any tire size
- Raises the engagement/stall of the clutches for a hard-hitting competition style launch
- Great for mud racing, competition pulls, drag racing, or aggressive trail riding
- Harder hole shot for off-the-line advantage
- Doesn't effect top RPM or speed

Economy Kit

- For general trail riding
- Spring kit only, no clutch weights are included
- Works with any tire size
- Improves belt grip and backshift

CV Boots - Heavy Duty

EPI is one of the industries largest suppliers of replacement CV Boots! Our CV Boots designed as custom-fit OE replacements. They are guaranteed to fit properly and are made of high-strength, flexible Polychloroprene that withstands heat, cold and all the abusive hazards we encounter out on the trail. Our kits include the grease and clamps, but we highly recommend our BDT80 Clamping Tool (on page 115). You'll love it and your friends will want to borrow it!

U-Joints

This is one of those parts that only seem to get attention when they go bad, but we like to encourage riders to proactively replace them. New U-Joints will make your driveline so much smoother and quieter, you'll feel like you got a new machine! Ours are made to meet or exceed OEM specs and come with a 1 year warranty.

Front A-Arm Bushing Kit

Your suspension is designed with "wear-parts" that allow it to do its job of absorbing the bumps. These wear parts need to be checked and replaced periodically. EPI offers complete kits for rebuilding A-Arms, Swing Arms and Independent Suspensions. This is another one of those areas of your machine that you'll be amazed by the ride and handling improvement after rebuilding. Our kit components are made from high quality materials and include everything you need.

Lift Kits

One of the most common reasons why our customers buy an EPI™ Clutch Kit is because they have added larger/more aggressive tires to their machine. An EPI™ Clutch Kit recalibrates your CVT so you can effectively turn those larger tires. If you've added larger tires you probably also need a Lift Kit to provide the necessary clearance. EPI™ offers a line of quality Lift Kits to gain 2-3" of additional clearance. As with all our EPI™ products, we guarantee these Lift Kits to be the best value and workmanship available!
